

How Many Miles To Babylon?

Song variation

Part 2.

Math for your ears!

[©toonesam.org](http://toonesam.org)

Vocabulary review:

Time Signature: It tells you how the music should be counted.

Measure: A specific number of beats defined by the time signature.

Bar Line: A vertical straight line between measures.

Example:

Count: 1, 2, 1, 2, 1, 2, 1, 2.

The diagram illustrates musical notation with four measures. Above the notes, the counts "1, 2," are written for each measure. The first measure is labeled with a time signature of 2/4. The first two notes of the second measure are grouped by a bracket and labeled "Measure". The first two notes of the third measure are also grouped by a bracket and labeled "Measure". A vertical line between the third and fourth measures is labeled "Bar Line". An orange arrow points from the text "Time signature" to the 2/4 symbol. Another orange arrow points from the text "Measure" to the bracket under the first two notes of the second measure. A third orange arrow points from the text "Bar Line" to the vertical line between the third and fourth measures.

Answer page:
(Part 1.)

- 1) You just heard 5 measures.
- 2) There were 5 beats in each measure.
- 3) So there were 25 beats altogether in the whole piece.

Explanation : 5 groups of 5 beats = 25 beats
 $5 * 5 = 25$

Create you own music game!

Here is how:

1. Print out the "Create you own music" page.
2. Make a musical piece and write the name of each note right below the note itself.
3. Play your musical piece (or just a part of it) first, using your tablet or keyboard.
4. Ask the following questions:
 - "How many measures did you just hear?"
 - "How many beats were in each measure?"
 - "So how many beats were there altogether in the whole piece?"
